Wiring Instructions

Fusion™ Hardwire..... 3

Fusion™ Cigarette Plug..... 4-5

Mounting Instructions

Permanent Mount..... 6

Magnet Mount..... 6

Step 1: In order to activate the unit, extend the red wire to the 12V(+) post of the vehicle's battery. Extend the black wire to the ground post of the vehicle.

Step 2: To turn the Fusion lightbar on, connect the brown wire to a 12V(+) switch.

Step 3: To change flash patterns, momentarily connect the yellow wire on a 12V(+) source.

Step 4: For takedown steady functionality, connect the white wire to a 12V(+) post (switch).

Step 5: For takedown flashing, connect the green wire to a 12V(+) post for single color system.

Step 6: To activate mode 2 for dual color systems; Connect the green wire to a 12V+ post.

Please Note! Takedown functions will not be provided unless otherwise requested at time of order.

Please Note! If the build option includes a cigarette plug, this illustration does not apply. (Please reference page 4.)

Please Note! This only applies if takedown functions are programmed. Takedown steady function will override takedown flashing mode.

FUSION WIRING DIAGRAM: CIGARETTE PLUG

To operate the cigarette plug option, plug in the provided lighter plug into the vehicle's cigarette lighter plug outlet. Turn the unit on with the On/Off switch and change patterns with the momentary flash pattern changer.

Please Note! The Fusion Mini Lightbar models allow for a cigarette plug or hardwire option. The cigarette plug features 2 on/off switches and a flash pattern changer switch. Note that mode 2 will override mode 1.

Cigarette Lighter Plug

Permanent Mount Installation:

Important! Installing the permanent brackets will involve drilling holes on the platform of the vehicle.

Note: The permanent mount bracket is adjustable and can be moved in or out.

Step 1: Place the permanent bracket on the platform and mark the first hole for drilling.

Step 2: Drill the marked hole.

Step 3: Attach the permanent bracket to the platform with a self-tapping screw (user provided).

Step 4: Mark the second hole for drilling on the opposite corner of the bracket. Secure the bracket using a self-tapping screw on the drilled hole.

Step 5: Mark and drill the remaining 2 holes and secure the bracket with self-tapping screws.

Magnet Mount Installation:

Please Note! If magnet mount was purchased, no mounting instructions are required for installation. Magnetic mount is to be used for no more than 30 mph vehicle speed.

The Fusion Mini wire harness may be ran through the gasket of the door or by drilling a hole in the vehicle's roof.

If the wire harness is installed in the door gasket, ensure the vehicle's door will close without any interference.
